1. Why did you decide to come study in Japan and choose Chukyo University?

I really like Japanese culture and I want to experience the life in Japan ,also I'm studying Athletic training now and Chukyo has very good sport department that had trained many outstanding players, so I was really looking forward to come to Chukyo University.

2. How do you think you have matured through your studies at Chukyo? Please share your experiences, events, or feelings while studying at Chukyo University.

My time in Chukyo have make many friends from different countries and have learned the culture in different areas. I have improved my Japanese and English it really helps me talk to more people .also I have signed the kendo class I really enjoy it and its really nice to have a chance to experience Japan traditional martial art.

3. How do you hope to make use of this experience in the future?

I would love to share my experiences to other who wants to study abroad or study in Japan also I would keep studying Japanese to improve my japanese level.

4. Finally, please give a message to juniors who are considering studying at Chukyo University in the future.

Going to Chukyo is the best choice I ever made.The university offers a great environment for students, with kind and supportive teachers, friendly classmates, and a lot of opportunities to join cultural and social events. I have so many unforgettable memories here, you will also have a wonderful time in Chukyo for sure!!

1. Why did you decide to come study in Japan and choose Chukyo University?

I've always wanted to experience life in Japan and dreamed of studying there. I had been learning Japanese for a while, so I really hoped to improve my language skills by actually living in Japan. After I finished all my required credits in my senior year, I found out that there was an opportunity to apply for an exchange program at Chukyo University in Nagoya. After doing some research, I realized that Chukyo University is a great school, so I decided to apply right away.

2. How do you think you have matured through your studies at Chukyo? Please share your experiences, events, or feelings while studying at Chukyo University.

I feel that I've grown a lot during one year as an exchange student at Chukyo. Not only did my Japanese improve, but I also became much more independent. In the Japanese classes for exchange students, the teachers were always so dedicated and supportive. Japanese students were also really friendly and eager to become friends with us. We had many chances to exchange cultures and take part in different events they organized for us, like the university's cultural festival, Halloween and Christmas parties, the Tanabata event, and the International Fair. These experiences helped me feel more connected to Japanese culture and daily life, and made my campus life full of great memories. I'm truly thankful to GEC for always taking such good care of us exchange students!

3. How do you hope to make use of this experience in the future?

I believe this exchange experience will be really valuable for my future. First, I want to continue improving my Japanese and use it in both academic and professional settings. Since I had the chance to communicate with people from different cultures and adapt to a new environment, I feel more confident stepping out of my comfort zone. I hope to use what I've learned both language skills and cultural understanding in my future career, especially if I work in an international company or in a job that involves Japan. Also, this experience reminded me how important it is to stay open-minded and curious, and I want to keep that mindset moving forward.

4. Finally, please give a message to juniors who are considering studying at Chukyo University in the future.

If you're thinking about studying at Chukyo University, go for it! I truly recommend it. The university offers a great environment for international students, with kind and supportive teachers, friendly classmates, and a lot of opportunities to join cultural and social events. Through these experiences, you won't just improve your Japanese; you'll also make unforgettable memories and grow so much as a person. I'm really glad I chose Chukyo, and I believe you will be too!

1. Why did you decide to come study in Japan and choose Chukyo University?

Because I like Japan culture and Nagoya city, and I see the Chukyo can provide many help for exchange student

2. How do you think you have matured through your studies at Chukyo? Please share your experiences, events, or feelings while studying at Chukyo University.

When I first arrived, I felt very nervous and helpless, but the school provided many activities and leaders to help us get familiar with Japan quickly, and it also allowed us to get to know each other faster.

3. How do you hope to make use of this experience in the future?

This is the first time I have made foreign friends and learned more about different cultures. This not only improves my foreign language skills but also broadens my horizons

4. Finally, please give a message to juniors who are considering studying at Chukyo University in the future.

If you are considering choosing this school, I highly recommend it. The students and teachers in the International Office are very friendly and provide many activities. You don't have to worry about being lonely or unhappy in any way. In addition, the school also arranges many small activities to promote mutual understanding. If you don't like the pace of big cities, Nagoya is your best choice. It is very convenient to travel to Osaka, Kyoto, and Nara in your free time.
