1. Why did you decide to come study in Japan and choose Chukyo University?

When entering university I knew I wanted to study abroad at some point and during the 1st semester of my sophomore year I went to a study abroad meeting and decided to at least apply and see where I would go. I got Chukyo and since I was interested in Japan I decided why not try it out and explore more of the world.

2. How do you think you have matured through your studies at Chukyo? Please share your experiences, events, or feelings while studying at Chukyo University.

I think it has added to my overall world view and has helped me grow into a more well rounded person.

3. How do you hope to make use of this experience in the future?

I would like to continue my Japanese study and stay in contact with the friends I have made here in Japan.

4. Finally, please give a message to juniors who are considering studying at Chukyo University in the future.

It's very fun and will be a very good experience if you want to see more of the world.
