1. Why did you decide to come study in Japan and choose Chukyo University?

In the future I would like to work in Japan so while still in school I wanted to study abroad. Chukyo seemed like a good university and I liked the location so it became my first choice.

2. How do you think you have matured through your studies at Chukyo? Please share your experiences, events, or feelings while studying at Chukyo University.

I have learned so much about the world around me. Not only through university but also from the people around me. My Japanese has also improved and I hope it continues to improve.

3. How do you hope to make use of this experience in the future?

After I graduate college I want to move back to Japan to teach. After living here for a year there is so much that I learned that can help me with this goal.

4. Finally, please give a message to juniors who are considering studying at Chukyo University in the future.

I think Nagoya is a great city to live in and chukyo is a good school especially when studying abroad in Japan for the first time.
