

WERKMEISTER BRADLEY RUSSELL

(Apr. 2026 - Aug. 2026)

Truman State University (ISEP)

1. Why did you decide to come study in Japan and choose Chukyo University?

I decided to study in Japan because I already was work towards earning a minor in Japanese, and I had the room in my schedual to do a semester abroad without graduating late.

I chose Chukyo because my professor suggested looking for a university in Nagoya since it's a middle point between Tokyo and Kyoto, giving easy access for trips to both places.

2. How do you think you have matured through your studies at Chukyo? Please share your experiences, events, or feelings while studying at Chukyo University.

Honestly the biggest way I've grow is just through forcing myself to ebrace an entirely new type of place. Prior to coming to Chukyo I grew up in a town of 4000, and went to college on a town of 15000 so this is the first time I've lived in a proper urban area. It's been cool to see the differences and similarities in lifestyle here.

3. How do you hope to make use of this experience in the future?

I hope to continue my study of Japanese once I return home, and this has been a great experience in increasing my understanding of the language.

4. Finally, please give a message to juniors who are considering studying at Chukyo University in the future.

Go for it. What reason do you have not to give srudying abroad a chance?
